### **DETAILED ACTION**

1. Claims 19 and 21-27 are pending. Claim 19 has been amended in this communication filed 02/14/05 entered as Response After Non-Final Action.
2. The 35 U.S.C. 112 second paragraph rejection for claim 19 still remains as set forth here below.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 19 and 21-27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Claim 19, line 3 recites "... to store versions of the database item". It is unclear from the claim language where the "versions of the database item" are being stored. Line 6 recites "a database having the database item, ...". When and how does the database get the item? These claim limitations are very vague and unclear. Steps appear to be left out of the claim.

#### ***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3624

6. Claim 19 recites the limitation "check in and check out" in line 4. There is insufficient antecedent basis for this limitation in the claim.

***Allowable Subject Matter***

7. Claim 19 and the depending claims 21-27 will be allowable when the 35 U.S.C. 112 first and second paragraphs are overcome. The reasons for the indication of allowable subject matter would be as follows: Applicants' editor to manipulate the checked-out database item, the first program comparing the version of the database item in the source code control system with the version of the database item in the database and the editor manipulating the database item as a function of the comparison, the prior art fails to anticipate, make obvious, or fairly suggest Applicant's invention.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Leblang et al (US 4,809,170) disclosed a program and version management.

***Inquiries***

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ella Colbert whose telephone number is 571-272-6741. The examiner can normally be reached on Monday-Thursday, 6:30AM-5:00PM.
